Corporate Sound and Light Show

Entertaining

captivating

Sound and light shows are held around the world at historical venues like Fort Jesus in Mombasa, Caernarvon Castle in Wales, the Wailing Wall in Jerusalem and the pyramids at Giza.

Now we are taking this concept into the African bush with a show that uses spellbinding stories, evocative lighting and a kaleidoscope of sound incorporating music and songs to keep the audience entertained for 45 minutes.

Storytelling is part of the African culture. What better place to listen to the tales of the continent than in the African bush, with the natural landscape and the night sky creating the theatre – a spectacular atmosphere that lends itself to a light and sound show.

We are offering two types of show – one where your guests come to a particular venue with their picnic baskets for a bush experience with a difference; the other a mobile show which takes place wherever you are.

The show can be set up to cater for small or large groups of audiences, in any language.
