Fix it Forward

Giving back team reconstruction

Giving back to local communities is very important and with this programme a school or clinic is identified which is in need of reconstruction. The "ground crew" will liaise with the school for a number of weeks before the delegates are set into operation. All the necessary building equipment, tools, paint, hardware etc will be purchased and taken to site before the arrival of the delegates.

Once on site, the delegates will be divided into teams and a team leader will be appointed. Each team will be assigned a specific area to work on e.g mending fences, painting walls, fixing doors etc.

Delegates will be given approximately 2 hours in which to complete the reconstruction. A wonderful way to leave your mark on a community in need.
