Paint it Forward

Giving back caring enough to make a difference

Picture the delight on a child's face when they walk into what was once a dull and dreary classroom only to find that it has been given a new coat of paint or has been given an entire new look by having a mural painted on the walls.

The "Paint It Forward" programme is a community programme in which projects will be identified by approaching the specific organisations in the surrounding communities to establish what assistance they need in the way of "painting projects".

There are many organisations, especially in the rural communities, who are in desperate need of assistance as little funds are available to spend on maintenance. Often, a simple coat of paint can make such a vast difference.

Participants gain a sense of incredible pride and achievement in giving back in a simple yet highly effective manner.
